

# DUBOIS

Dubois Naval Architects are delighted to announce that the following vessels are finalists in the 2011 ShowBoats Design Awards, presented by Boat International Media.

The winners are to be announced on the 25th of October at an Awards Ceremony held at the Mar-A-Lago Club, Palm Beach, Florida.

## FINALIST

### ***Kokomo* 58.4m**

**Finalist Categories: Naval Architecture, Interior Layout, Interior Design**

The Alloy Yachts built *Kokomo* has already had great award success, winning the 2010 ISS Best Sailing Yacht, and this year receiving the Judges' Special Award at the World Superyacht Awards.

*Kokomo* features a Redman Whiteley Dixon interior and with her lifting keel we believe she is one of the most advanced yachts of her type in the world today.

### ***Twizzle* 57.5m**

**Finalist Categories: Naval Architecture, Exterior Design and Styling, Interior Design, Recreational Area for Guest Use**

Launched in late 2010, this 57.5m ketch was built by Royal Huisman with exterior styling and interior design by Redman Whiteley Dixon.

She too has already seen success this year, receiving Best Custom Built Yacht in the Asian Boating Awards and a Judges' Commendation at the World Superyacht Awards.

### ***Zefira* 49.7m**

**Finalist Categories: Naval Architecture, Exterior Design and Styling, Interior Design, Crew and Service Area, Bespoke Furniture**

The beautiful *Zefira* was designed for Italian owners; she was built by Fitzroy Yachts and has an interior designed by Remi Tessier.

Receiving Sailing Yacht of the Year, along with Best Sailing Yacht 45m+ at the World Superyacht Awards, we have high expectations for her at the ShowBoats Gala this October.

### ***Lady B* 44.7m**

**Finalist Categories: Naval Architecture, Exterior Design and Styling, Interior Design**

*Lady B* has a number of features that are well deserving of a win at the ShowBoats Awards; her lifting keel and direct access to the owners' stateroom from the aft deck make her a particularly special design.

*Lady B's* interior comes from Rhoades Young Design and she was built by Vitters Shipyard in Holland.

### ***Imagine* 43.5m**

**Finalist Categories: Naval Architecture, Exterior Design and Styling**

This is the second awards appearance for *Imagine* after taking Best Sailing Yacht (30m - 44.99m) at this year's World Superyacht Awards.

*Imagine* is the second design for the same owner and is the 21st Dubois design to be built by Alloy Yachts and her interior was jointly styled by the yard and owner.
